PRICES ARE ASSEMBLED EX OUR DARWIN STORE

As the local stockist and Darwin distributor for Hare & Forbes and Measumax, we are given a stockist margin on the head office price for all the products. You will pay the same ex-Sydney store price and we can organize your freight palletized, insured and delivered to your store for \$1.40 per kg on mass. For unusual, tall, bulky or any special packaging requirements we quote subject to confirmation. Non stocked items and tooling can be delivered within 7 days generally or air bagged overnight.

All the equipment has the net weights for shipping on non stocked items, eg; If a machine is \$3,000 and weights 400kg, our price would be \$3,560 to your Darwin store. Our website links to Hare & Forbes website and you can purchase your goods from us for the same price and still support our new local business.

We do stock consumables and now offer our new In-house Tooling Service. Products advertised below are in stock assembled at the time of printing.
